ANNUAL REPORT FOR THE ACADEMIC YEAR 2021-2022

I am delighted to present the annual report for the academic year 2021-2022 of Mahendra Engineering College for Women. First and foremost, I extend my sincere gratitude to the management for their unwavering commitment to advancing education where it is most needed. Since its establishment in 2008, our institution has remained steadfast in providing high-quality education to young and aspiring students. Our vision, "To be a value-based globally recognized institution ensuring academic excellence and fostering Research, Innovation, and Entrepreneurial Attitude," underscores our dedication to holistic development. This academic year has witnessed significant developmental activities within the college, aimed at enhancing various aspects of our institution and ensuring an enriching experience for both students and faculty members.

In the academic year 2021-2022, a total of 147 students were admitted across 5 undergraduate and 1 postgraduate disciplines, supported by 85 teaching and 14 non-teaching staff. Mahendra Engineering College for Women prides itself on well-equipped laboratories, state-of-the-art classrooms, well-furnished seminar halls, and a library housing a rich collection of 14,120 books and 36 national and 36 international journals. We provide access to NPTEL facilities for video lectures, DELNET for resource sharing, a high-class hygienic canteen, secure hostel accommodations for girls, bus services, and much more.

Our college utilizes an ERP system, serving as a powerful tool to update administrative processes, improve data management, and enhance the student experience.

Our faculty comprises highly qualified and experienced academicians, with professors boasting more than 20 years of experience. We take pride in having 5 faculty members with doctorates and 5 currently pursuing PhDs.

An induction ceremony welcomed our first-year students, followed by a foundation course during vacations to help them acclimate to the university syllabus. Special coaching is provided to support slower learners in achieving their best results. Each mentor is responsible for guiding 20 mentees, focusing on their academic and professional development.

The creativity and commitment of our staff are commendable, evident in the results achieved in the Anna University Examination, with a pass percentage of 79.62%.

We organized workshops and seminars to explore new ideas and approaches, providing a platform for skills enhancement. A total of 1,090 students participated in events covering research methodology, intellectual property rights, and entrepreneurship. Additionally, 272 students engaged in project work as part of their academic curriculum. Our faculty members and students enrolled in NPTEL courses received certificates. Sixty-two teaching and 9 non-teaching staff attended faculty development programs, with 65 faculty members engaging in various programs supported financially with Rs. 3.53 lakhs.

The institution offers 9 value-added courses aimed at providing skill-oriented technical training. We signed 9 MoUs for faculty and student development and secured grants from 4 industries totaling Rs. 4.41 lakhs. Our faculty members published 7 research articles in reputed journals.

To provide students with corporate exposure, we regularly arrange in-plant training and industrial visits, enabling them to observe practical industry activities.

Our full-fledged training and placement cell starts grooming students' communication and employability skills from the first semester itself. Various programs on soft skills, language and communication, life skills, and recent technology trends awareness were conducted.

The placement cell continuously engages with top industry executives to provide placements. We extend our gratitude to the recruiters for conducting recruitment at Mahendra Engineering College for Women. We value feedback from stakeholders, including employers, teachers, parents, and students, to continuously improve our operations.

We are proud to announce that 194 final-year students have been successfully placed in reputed organizations. Diligent students benefit from fee waivers for all four years, a scheme that will continue for deserving candidates.

The management leads by example in caring and sharing, securing government scholarships benefiting 98.39% of students. Our college underwent green, energy, and environment audits, receiving certification. A biogas plant was installed as part of our green energy initiative.

Sports and cultural activities are integral to education, with students enthusiastically participating in 52 events at the annual athletics meet. Students also undergo yoga, meditation, and personality development classes to enhance their growth potential.

We instill discipline and foster friendly relationships without discrimination, achieving outstanding performance in our National Service Scheme Unit, with students actively participating in 15 NSS activities.

As we celebrate 13 years with a sense of satisfaction and accomplishment, we acknowledge our gratitude to the Almighty for making this journey possible.
