ANNUAL REPORT FOR THE ACADEMIC YEAR 2022-2023

I am delighted to present the annual report for the academic year 2022 -2023 of Mahendra Engineering College for Women. Firstly, I would like to express my gratitude to the management for its unwavering commitment to advancing education where it is most needed. Since its establishment in 2008, our institution has been dedicated to providing high-quality education to young and aspiring students. Our vision is "To be a value based globally recognized institution ensuring academic excellence and fostering Research, Innovation and Entrepreneurial Attitude" which focuses our commitment to fostering holistic development. This academic year has witnessed significant developmental activities within the college, aimed at enhancing various aspects of our institution and ensuring an enriching experience for both students and faculty members.

In this academic year 2022 - 2023 a total number of 244 students were admitted in the 4 Undergraduate and 1 Post Graduate disciplines with faculty strength of 85 teaching and 17 non- teaching staffs. For effective learning Mahendra Engineering College for Women has well equipped laboratories, state-of-the-art classrooms, well-furnished seminar halls, a library which contains a rich collection of 14215 books, 36 national and 36 inter-national journals for various disciplines, NPTEL facility to access video lectures, DELNET for resource sharing, a high-class hygienic canteen, secured hostel for girls, bus facility, and many more.

The ERP system is used in our college. ERP software acts as a powerful tool in helping our college to update administrative process, improve data management, and enhance the student experience.

The Faculty comprises of highly qualified and experienced academicians. We have professors possessing more than 20 years of experience. We are proud to express that 7 of our faculty members are doctorates and 3 faculties are doing PhD course.

An induction ceremony was conducted to our first year students for a wonderful start. Every year we conduct foundation course for the freshers during the vacation in order to cope up with the university syllabus. We give special coaching to slow bloomers after the college hours in the evening to achieve the best results. Every mentor will have 20 mentees, who guide them with an objective to provoke them on the academic and professional development matters.

The creativity and commitment of our staff is commendable and is revealed through the results we achieved in the Anna University Examination. The pass percentage of 88.72 in AU examination shows that our students excel well in their chosen fields.

We have organized workshops and seminars to explore new ideas and approaches to provide a platform to sharpen the skills. Faculties of every department organized annual symposia on promising topics.

1134 students participated in workshops, webinars and seminars conducted on research methodology, intellectual property rights and entrepreneurship. 322 students have undertaken projects, 87 students underwent internship programmes and the Unique Students count of the year is 409.

Our faculty members and the students enrolled in NPTEL and received certificates. 61 teaching and 11 non-teaching members have attended faculty development programmes organized by our college. Various faculty members have attended seminar, workshops and presented technical papers in conferences and symposia organized by Anna University and various institutions. 70 faculty members diligently engaged in various programmes with the financial support of Rs. 3.83 lakhs. Our faculty members have published 2 research articles in reputed Journal.

The institution offers 9 value added courses with an aim to provide platform for skill oriented technical training. Our college signed 19 MoUs for the development of faculty and student. We are also doing projects for industries and received grants from 5 industries worth of Rs. 6.13 lakhs.

To enlighten the students with corporate exposure in the industrial environment and the real world, the students are encouraged by arranging in-plant training and industrial visits regularly which enable the students to observe the practical activities of the industries, their methods and procedures.

Mahendra Engineering College for women houses a full-fledged training and placement cell to augment the communication and employability skills of the students the training starts from the first semester itself. Various programmes were organized on soft skills, language and communication, life skills and awareness on recent trends in technology.

The placement cell monitor the prospective companies to undertake campus interviews and has been continuously interacting with the top executive of various industries for providing placements, we owe our gratitude to the recruiters for having conducted recruitment in Mahendra Engineering College for women.

Every year we take actions on the feedback received from our stakeholders - employers, teachers, parents and students for the improvement and greater efficiency.

We proudly proclaim that 165 final year students are placed successfully in the reputed organizations.

The diligent students are greatly benefited by the significant aspect of MECW, which offers fee waiver for all the four years. This Scheme will be continued to the deserving candidates every year.

The management sets an example in caring and sharing. The administrative office of Mahendra Engineering College for Women, works steadily to obtain the scholarship from the government and 92.47% of students are benefitted. Our college has undergone green audit, energy and environment audit and received certificate. Biogas plant was installed as part of green energy initiative.

Sports and cultural are the integral part of education and our students enthusiastically took part in the event. The annual athletics meet with 61 Sports and Cultural events were conducted with our usual enthusiasm I feel privileged to congratulate our students who bagged many prizes. Our students are undergoing yoga, meditation and personality development classes to assist them in their growth potential.

We impart a sense of discipline, and foster friendly relationship without any discrimination in the minds of the students through which we achieved best performance in National Service Scheme Unit. Our students actively participated in 14 NSS activities.

We have passed 14 years with a sense of satisfaction and accomplishment. We wish to acknowledge that we owe a debt of gratitude to lord almighty who made it possible.
